

ISUZU matters

When you work here or here...
Maintenance free means so much more

Nothing is free...But, engines that perform every day out here without constant maintenance can help free your mind. Our DOC (Diesel Oxidation Catalyst) technology, which includes metallic substrates for durability and reliability, does not require expensive Diesel Particulate Filters or DPF maintenance. Improved fuel economy, durability and reduced emissions - engines built to your exact requirements in compact configurations. Our advanced technologies...tested to work where you work, every time.

With more than 300 North American Service Dealers to support you locally, we will continue to build what matters to you...wherever your work takes you.

Call now for an update on all the Tier 4 Final engines ready today!
