

Isuzu Diesel Engines

It's safe to exhale.

Environment matters.

As an engine manufacturer since the early 1900s, Isuzu has led environmental compliance in countries around the globe. From North America, to Europe, to Japan. From engines up to and over 550 hp. A readiness – for the 2011 Interim Tier 4/EU IIIB standards, and beyond. It's Isuzu innovation at the center of what matters: environmentally-friendly engines, for our today and tomorrow. Breathe easy.
