**Increasing your knowledge
to better serve the Isuzu Network**

Online and In Classroom Training

To assist the Distributor and Dealer network, Isuzu developed a training website to provide free, unlimited access to training information. Our goal is to increase Isuzu technicians' training completion rates, provide comprehensive web based training modules, and provide online tests for two year re-certifications. Additionally, this will provide Distributors and Dealers monitoring tools for their network training to help identify training needs. The Isuzu training website increases network training percentages using easy to access, low cost tools.

► Get Started Now!

Contact your Distributor to get started today! For additional information, refer to the Isuzu Technical Training Bulletin TTB-03-14 from the Isuzu Information Library.

ISUZU Training

Engines are the heart of Isuzu Motors Limited, an industry leader of over 20 million diesel engines worldwide. Isuzu products, noted for reliability and durability, have stood the test of time.

Isuzu Diesel places the support of our products in the hands of the Distributor and Dealer network and their thoroughly trained technicians. The Isuzu Training Program is available both online, as web based modules, and as Hands-On courses with certified Isuzu trainers.

Online Course Highlights

- Increases completion rates of Isuzu Training
- Provides free access to web based training modules
- Provides online tests for 2 year re-certifications
- Increases ease of Distributors & Dealers monitoring their network training status to help identify training needs
- Web based modules available for service, parts, warranty, sales, and engineering

Hands-On Courses

Hands-On Training courses are offered either at Isuzu Motors Company directly or off-site locations which target the Distributor & Dealer needs. The web based training acts as prerequisites for the Hands-On training and must be completed prior to onsite training.

Hands-On Courses Include:

- iT4 Electronic Controls and Diagnostics
- Tier 4 Final 4LE2 Electronic Controls and Diagnostics
- Tier 3 Engine
- E-IDSS Software
- Policy and Procedures

Hands-On Training Available Through Certified Train-the-Trainer Distributors

Isuzu PowerTrain recognizes the need for experienced Distributor trainers to develop the Isuzu service network and provide real life, hands-on experience to their own dealers. The close relationship Distributors share with their Dealers can provide an understanding of their unique products, OEMs, and customer base with locational challenges. Isuzu PowerTrain is offering Train-the-Trainer courses to establish Isuzu Distributor service staff as qualified Isuzu training representatives. All courses, publications, and support materials are designed to provide information to train their respective network with the materials and hands-on training information required for the Isuzu Dealer network.

Isuzu PowerTrain Training Strategy

- Improve and add value to the Isuzu PowerTrain support network
- Providing publications support materials to exceed the industry standard
- Establish a course structure to support specific Isuzu PowerTrain needs
- Engage trainees in engine training modules to improve efficiency and reduce maintenance costs for Isuzu PowerTrain, Distributors and Dealers
- Identify courses that raise the technician's level of Isuzu product understanding
