2-Yr. / 2000 Hr. Warranty†

## MORE POWER, SMALLER PACKAGE!

The new 4J Compact Power Unit features an ECM enclosure and separate Fuel Accessories Plate that can remain mounted to the engine feet or relocated to reduce width. Other features include:

### ISOLATED AIR CLEANER

- Smaller outlet for simpler, lower-cost intake pipe assembly
- Isolated from the engine
- Side mounted to reduce overall height
- In-service lift-eye retention

### COMPACT RADIATOR

- Reduced-length fan shroud and guard
- Offset feet with low-profile isolators
- Inlet/outlet ports match engine port sizes, simplifying hose replacement

### SHALLOW-DESIGN OIL PAN

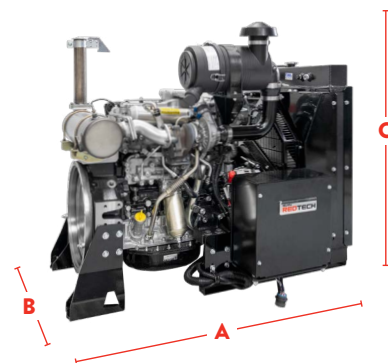

- Lowers engine in the pedestal
- Reduces overall assembly height

### PEDESTAL MOUNTING

- Mounting brackets adjust to meet the crank centerline height and can be hard-mounted or installed with isolators
- Multiple mounting locations allow installation flexibility
- Mounting brackets contain a lift eye for hooks and easy assembly relocation

## DIMENSIONS 4JJ1TABW03-410

<b>A</b> – Length	46.7" (1186 mm)
<b>B</b> – Width	41.3" (1049 mm) 29.7" (754 mm) with Remote-Mounted Accessories
